PALLAM PAVAN KUMAR

Certifications:

- Java By coding ninjas
- Spring by udemy
- Spring boot by udemy

Skills

- Java
- Hibernate
- Spring
- Spring boot
- microservices

Education:

- Degree: Bachelor of Engineering

Trainings:

- Java Fsd angular by wipro
- Java Backend development By Global EDX
- Frontend Backend development (Angular) By Global EDX
- MySql database By Global EDX

Projects:

- **My Time Away - Full Stack Leave Management System:**

  Developed a comprehensive leave management system to streamline employee leave processes within an organization. Implemented the backend using Spring Boot with a MySQL database, and the frontend using Angular. Key features included adding, updating, deleting, and searching leave requests, as well as functionalities for cancelling, approving, and rejecting leave requests.

- **Quiz Application By Using Spring boot and Microservices**

  Created a Backend quiz application by using spring boot and microservices. Understood how a REST API application works.
